What do I do if I receive the following message - **promo code already used/This code can be used only once?**

If promo code is applied for the first time and while completing the redemption process, user goes back on the menu or skip the redemption process, the user may get an error while using the promo code again (This code can be used only once). Its suggested that one can close the app and login after few minutes and then apply the same promo code for redemption.
